Nothing brightens a room so much, or makes it as liveable and honest-looking as growing p'ants. A ferm or a bright geranium will help, but a whole window full of

a simple and charming way of "beautifying one's home," but like many simple and charming things, it is frightfully expensive, in the winter time. Growing plants are more trouble, but to many persons it is a pleasure to care for them, and they are within the reach of the ordinary

For house culture nothing is more satisfactory than bulbs. They are easy to grow and give excellent results. Hya-cinths, tulips, narcissus; calla lilies and week should be sufficient. freesias are especially practical. Hyacinths may be grown in glasses as well as in soil, narcissus and some of the Chinese lilies in bowls filled with pebbles and

Growing Hyacinths

The time for planting hyacinths is Sepmber, October and November. The size of the pot depends upon the umber of bulbs planted in a single oneeight weeks, while the necessary root thick. He calls the inside of the crust growth takes place. After this period the barysphere. not heated, but not so cold as to freeze. Do not put them into the sun for two or three days, as when exposed to the light course growing from bulbs in this way is hardly possible in the average city house with no ground. In this case the plans will have, to be started by a florist, or bought at the stage where they have

ced to come up. Bulbs Grown in Water Hyacinth growing in glasses is an in-eresting variation of the more usual method, and one, for some reason, par ticularly dear to the hearts of our grand mothers. All old ladies who are fond of

flowers have one or more hyscinth glasses For this purpose, single varieties are best. There glasses, as most persons know, are peculiarly shaped, so that the bulb is placed in the top part, in a sort of cup. Fill the glass with water so that it touches the bottom of the bulb. Put in a cool, dark place and keep there from six to eight weeks before bringing into

the light. Somewhat different from the glass, lough worked upon the same principle, is the pebble-filled bowl, in which narcis sus, Chinese lilies and other types may be planted. The water should be kept filled up, but not actually changed. A lump of charcoal placed in the water both of bowls and glasses, will preventit from getting foul.

growth. They must be given plenty of vice. Fresh gas daily.

Tulips lend themselves espe noronghly they may be brought into the

which may be made gradue Calla lilles require plenty of warmth and water and rich soil to make them thrive. Freesias are not as well known as they deserve for purposes of hones culture. Unlike most bulbs, they must b placed in the light at once as soon as planted. They make root and top More than one horse has been ruined at one time, and become weakened if put for life by being made to pull hard when in the dark. They are small tube-like flowers. white at the end, verging on yellow toward the bottom of the "tube"

Where there is any one in the family who has a regular amount of time to give to the plants, the greatest success with three weeks apart, so that they will come to flower one after the other in relays. blooming plants continuously through the season. The succession may be varied, hyacinths coming after the tulipe, then narcissus or lilies, and so on, so as to have not only freshly flowering plants,

but a variety of then

Plants Must Be Nourished The greatest number of failures in plant raising are due to the fact that so many persons do not realize that plants living in the house are under unnatural condi tions, and must be treated, in a sense, uunaturally. They cannot be left to them selves, as they would be out of doors, but must be artificially nourished; in words, they require plant food of some sort. This applies more especially to the plants which come from the flower shops ready to bloom. For this an expert gar-dener suggests sheep manure as the best fertilizer known for house plants. should be put on about every two weeks. flowers is lovely.

A standing order at the florist's provides this way to bring them to their full

strength.

More often than not flowers in pots and pans are not watered properly. A little water is poured upon the top of the soil, and nothing more. It is far better to submerge the entire pot in a bucket of lukewarm water, leaving it there at least five minutes. In this way the roots at the base of the pot are thoroughly soaked. Watering in this fashion three times a

Interior of the Earth

A French scientist advances the follow ing theory of the condition of the interior of the earth. The mean density of the earth is known to be more than five times that of water. As the outer layers of the crust have a very feeble densitywater 1, rocks an average of 21-if folows that the interior must have a density Three bulbs might be planted in a pot six of about 7.7, which is that of iron. He inches in diameter, one or two in pots says that there is enough accurate infor-proportionately smaller, two bulbs in a mation about the rigidity of the earth to pot being particularly effective. Water make it fairly certain that this is slightly well, and then bury the pots in the open greater than steel. He calculates that ground to the depth of six inches for the crust of the earth is about 930 miles

losses of other people

It seems that the bank which closed its doors was mismanaged and that the State Banking Board should have prevented the mismanagement, but it did not do so. Although this criticism may be made of the State Banking Board of Oklahoma it can also be made of government officials whenever a national bank collapses. The difference in result is that under the present government supervision the depositors may lose their money while in Oklahoma it seems that deposi of Miss Perry, clerk in the office of the ters are to lose nothing.

A BARGAIN IN LACES AND EMBROIDERIES

We have bought up a manufacturer's leftovers of laces and embroideries at a remarkably low price. These laces vary in value from 5c to 25c per yard but we will sell them at 2c and 3c per yard.

S. BURSTAN MIDDLETOWN,

CORNER BROAD DELAWARE

(Ca)(Ca)(Ca)(Ca)

TERE you in our little shop this week? No! Well! Indeed we are sorry. Because you have missed some of the pretty things we were anxious for you to see. We sold twenty hats and have orders for morebut we also made twenty-better ones perhaps for you. We will show them-firston Monday and during the week while they last. In reality we'll have another opening display-so you can be sure the stock is dainty and fresh and clean. The style certainly cannot be duplicated this side of Philadelphia and the prices compare very favorably with the most ordinary "manufactured millinery."

NOTICE!

I, JOSEPH L. BEALE, tenant of souse known as the Port Penn Hotel, nated at Port Pena, in School District 33, sounty of New Castle and State belaware, in compliance with the currements of the acts of the General quirements of the acts of the General Assembly, in such cases made and provided, do hereby give notice that I shall apply in writing to the Court of General Sessions of the State of Delaware, in and for New Castle Caunty, on MONDAY, the First day of Newember A. D. 1909, being the next term of said court, for a licence for said house as an inn or tavern for the sale therein of intoxicating liquors in quantities less than one quart, to be drank on the premises, and the following respectable citizens of said School District, at leastern of whom are substantial

The Imperial Double Disc Harrow

The mperial Double Disc Harrow is just what its name indicates—two harrows combined in one, for the purpose of saving time and labor in tilling the soil. 'ts capacity is twice that of any other form of Disc Harrow, for it works the ground twice at one operation. One man and four horses operate the largest size (28 disc.), doing as much work as could be done with two ordinary harrows employing two men and six or eight horses. Moreover the work is more thoroughly done, for the second harrowing follows immediately after the first, before the freshly cut ground has had time to dry out or become hard.

The forward pair of gangs cut the ground and throw it outward. The rear gangs cut it again and throw it back, leaving the surface finely pulverized and perfectly level. The two pairs of gangs are connected by a jointed frame which causes the rear gangs to follow the front gangs in turning, moving over the same ground in rounding a corner. This adds much to the ease of operation, especially in turning round at the end of the field.

The Imperial Double Disc not only fines and reduces the soil in a very thorough manner, but it also leaves the surface even and level in every part of the field. No ridges are thrown up at the turning points, that objection being overcome by the fiexible frame. The ground is as effectively pulverized and leveled there as it is anywhere else. For preparing corn stubble ground without plowing, for cutting up sod, for general harrowing, or in fact for any work a Disc Harrow can do, the Imperial Double Disc has no equal. Lots of them in use in this section and ground recommend than pleased. section and every user more than pleased.

me Chicago Joe.
And you were a sheep herder?

The lady laughed.
I prefer to call you Joe, she said.

I've herded sheep, ma'am, he said, but 'd rather be called a cowboy.

All right, said the boy, that's what El-die calls me. You'll let me take care of

Why, yes, said the mother; that will

relieve me of a lively responsibility. Eddie is a very active child.

nansed add shook a red fist menacingly.

A moment later the boy put the can on the window shelf beside the lady.

There's the freshest milk you can get

The trucks! she gasped.

Why, he's the man I got the milk from. He wouldn't give me any when I asked him for it and so I milked a cow. He caught me at it and chased me

But why didn't you buy it from him

The boy looked at her quizzically. His ace was a little flushed. I guess you never heard why the didn't eat his supper, he said.

Do you mean, said the lady, that you the sleeping child on one of the didn't pay him because you had

That's it, said the boy. You see eople with money don't ride on trucks. The lady found her bag and quickly frew from it several bank bills. Take these, she hastily said.

He drew back. No, no, he said. I don't need

Take the bills, she commanded. Just as a sort of steward? queried the

I'll keep account, he said and pay you back what's left over. Then he suddenly onto one of the trucks and cling used to handling lambs. And he laughed. I guess I'm pretty cheeky,

Why? Taking so many liberties. Here I am only a nurse boy, and you're treating me like a friend.

Your the best kind of a the lady, the friend in need.

But my clothes? persisted the boy. influence, said the lady softly, They don't match with a Puliman.

The lady laughed. You're clothes are all right, she said, They don't worry me in the least. In fact I'm not worrying at all. She drew a telegraph blank from her bag and rapidly scribbled a message. There, she said, I promised him little. And their the boy. Wouldn't you like to lie want you to send that telegram from the next telegraph office. It tells my husband that we are well and safe and happy. I don't think I could have said all that this No, said the lady, I am resting morning.

The boy nodded, Well, I guess I'm a good deal happie than I would have been on that truck, he said. Hark? There's Eddie.

He had the boy up in a moment and took him and washed his face and smooth sister in San Francisco and I teleed down his curls, and brought him back

rosy and dimpling.

And while the boy held him up as graphed my husband that I would come home-our home is made funny faces at him and drove him into a gale of laughter, the Pullman conductor came down the aisle garb looked well on the fine young maid was taken ill-too ill to start He raised his hat to the lady and stared on the long journey-and I left at the boy. He is with me, said the lady. The

A PLEA FOR THE CHILD

God hath his small interpreters, The child shall teach the man.

powers and attainments of children, and parental authority is exercised to the extent sometimes that all individuality crushed out. Of course, the parent are better fitted to guide and direct the child than he is to dictate to them, or to pursue his course without training o ion. But the child should be allowed to exercise his individuality and follow his inclinations at all times so long as he is not doing wrong. A subjugate child can not develop to the fullest the powers of "the old school" use the rod uite freely that they might not spoil the child. But the great severity of disci-pline that was brought to bear upon the child in those days certainly did not tend to bring out the best that was in him veloped from those children were great

not because of the repression that was put upon them, but in spite of it. Corporal punishment is a relic of barbarism If a child cannot be made to see the error of his ways through his intellect, his con science and his love, we doubt very much if blews would avail. Of course it is often necessary to restrict, rebuke and force a child, but there are ways of doing this without crushing the spirit and killing the seeds of character that are forming to mould a distinctive manhood or wo

There's a divine spark of good in the soul of the most perverse child. reach it and b.ing it out if we try. And the Creator meant childhood to be all followed his first encounter with the lady bright and joyous. To a little one in should hurt, so inherent is its right to be happy. And so, how actually wrong it is

to dim the young life by the faintest the convenience or plans of others. His life is his own, and he has a right to live and grow as God and nature meant him

to grow. Of course, all children must be taught, must be guided and trained. They must have instilled into them from their earllest years a proper sense of reverence for sacred things, and a due respect and regard for their elders and superiors. But always show the children gentle consideration and they will naturally extend it

Sympathy is the greatest force in building character—the kind of sympathy that prompts to a study of the nature, the nations and bent of the individual child. The great teachers, whether they and women of deep, warm sympathetic bearts, and devoted to their calling, that noble one of training the young in their charge. Sympathy is the great kev note to the child's heart and higher na ture. He will respond to it and block and develop as the rose responds to sur

Why Buy McClure's?

McClure's Magazine is bought and read in homes not because it is a magazine but because it is the magazine. Why?

FIRST—THE PRICE. It costs but one dollar a year, or less than ten cents a number, for over thirteen hundred two-column pages of reading matter. This amounts in actual bulk to twenty or twenty-five books costing anywhere from a dolar to two dollars a volume.

SECOND—QUALITY. The reading matter is written by America's leading writers—the best short story writers, the best writers on timely articles, the best writers of important serials, such as Schur's Reminiscences or Baker's Railroad articles.

THIRD—TIMELINESS. The reading matter in McClures is not only good; it it is not only entertaining, amusing, instructive and inspiring—it is also about the subjects in which you and all Americans are most interested at the time. No subcets in the next twelve months are going to be so fimportant as the question of rail-oad rates and rebates and the question of life insurance. Both of these questions ill be discussed by authorities in an impartial, careful, interesting way.

FOURTH—ITS CHARACTER. McClure's Magazine is not edited for children out at the same time, there is never a line in it that any young girl might not read advertising pages are as clean as its editorial pages.

MCClure's Magazine

in your home is intended to work only for good. Send \$1.00 to-day for one year's subscription, or leave an order at your book-store. November and December free with new subscriptions for 1909.

8.8. McClure COMPANY, 47 East 23 Street, NEW YORK

You can earn a good income by taking up the business of securing subscriber to McClure's. It is clean and self-respecting—a publication any man or woman would like to represent. The pay is 25 cents for each \$1.00 subscription, in addition blg cash prizes for thebestwork. Write to-day for full particulars.
